**WE ARE THE  
LEADING  
E-LEARNING  
PLATFORM IN  
DECEPTION  
DETECTION  
WORLDWIDE**

Founded in 2012, the European Polygraph Academy (EPA) is a certified school by the European Polygraph Association and the Israeli Computerized Polygraph Association (ICPA).

Thanks to our e-Learning platform, EPA provides polygraph courses with an unbeatable price and the most relevant training in comparison with other education programs.

The academy has several partner organizations in different countries of Europe and America where students must complete an internship after finishing the theoretical training

# ABOUT US

The European Polygraph Academy arises from the need of expanding the Forensic Psychophysiology knowledge through Europe and the rest of the world.

More than 15 years of experience in Polygraph Training validates the competence of our staff.

In our efforts towards extending the practice of Polygraph at affordable prices, we have developed an e-Learning platform with courses available to students from all over the world.

We have qualified coaches to mentor our students from day one, ensuring that any questions will be fully answered in less than 24 hours. Our key premise is that each student can fulfill their individual training needs instantly and openly, without schedules, saving time and investing it for a better future through a successful career development.

# WHY CHOOSE OUR COURSES?

## OUR COMMITMENT

### No space-time barrier

You can be part of the training from anywhere! Lessons and contents are available every day, all the times. This helps you optimizing the time invested in polygraph training.

### Save of time and money

Our online Courses are 4 times less expensive than traditional education. You won't have to spend money and time traveling and attending a course without flexible schedules.

### Adjustable training

EPA has countless resources and techniques for our students' needs, always available at our virtual campus. Move at you own pace with a very flexible but formal study program.

## **Ease of study**

No last-minute study for arranged tests. In our E-learning platform they will be ready for you whenever you're ready to take them. We believe that learning without pressure is the best way for everyone.

## **Fresh contents**

Find the latest resources and studies in the Lie Detection Field added in each lesson and virtual library, keeping the platform updated with the latest news and scientific discoveries.

## **Smart interaction**

We encourage our students to share information and experiences via Forum, Chat and many other tools in our e-Learning platform as well as keep visiting the online library even if the course is completed.

**Never stop preparing  
yourself because every day  
you can learn something  
new.**

**TODAY IS THE DAY!**

# A CAREER WITH A GREAT JOB PROSPECT

IF YOU ARE A PERSON  
WITH:

- Intuition and determination
- Professional discretion
- Sense of justice
- Analytical skills
- Honesty
- Independence of decision

THIS CAREER IS FOR  
YOU

# OUR COURSES PROFITS

## Academic Titles

Our courses are certified by the most established and prominent international associations such as the Europolygraph and ICPA (Israel), and legally valid as the ones given by other associations as APA.

## Quality education

All our students are able to surpass 70% of the maximum mark required thanks to the ease of study offered .

## Online library

We put at the disposal of students and members a very extensive compilation of papers and books related to detecting deception and the presumption of credibility.

## EUROPEAN LEARNING PARTNER

Promoting quality education in polygraphy, EUROPOLYGRAPH, together with the European Polygraph Academy (EPA) has designed an innovative blended learning system, that allows unlimited access to professional training in Forensic Psychophysiology.

With our dual training method, each student receives the theoretical-scientific content through a modern eLearning platform. This system allows students to have progress based on their own studying dedication. Our platform is open 24 hours a day, 7 days a week, and it can be used from anywhere on the planet! All that is needed is a computer and internet connection.

This theoretical instruction can be complemented with a PRACTICUM, in which our students are assisted by professionals instructors and/or experienced examiners in their first real polygraph exams, highlighting which are the necessary skills for our profession.

This educational modality is possible by virtue of the agreements signed between the EPA and the organizations participating in the Europolygraph Learning Partner (ELP) program, which comply with a series of academic requirements and training standards established by the EPA. Each ELP undergoes periodic inspections to guarantee its quality and optimal performance.
